## Talk to your radio System from Anywhere in the World

RadioPro Mobile allows remote access to your Motorola MOTOTRBO, Kenwood NEXEDGE, Hytera DMR, or Icom IDAS 2-way radio system from Android or iOS (iPhone and iPad) mobile devices. Selection of a talk group is made from a list on the main screen. Group or private calls are made easy by a “Contacts” button that is conveniently located next to the PTT button. RadioPro Mobile is useful over cellular networks when you are on-the-go and outside the coverage of your radio system, yet still need radio communications. It can also be used within a Wi-Fi network to lower monthly cellular charges.

RadioPro Mobile is the simplest, most reliable, and most cost effective PTT solution for 2-way radio systems on the market. It includes the following:

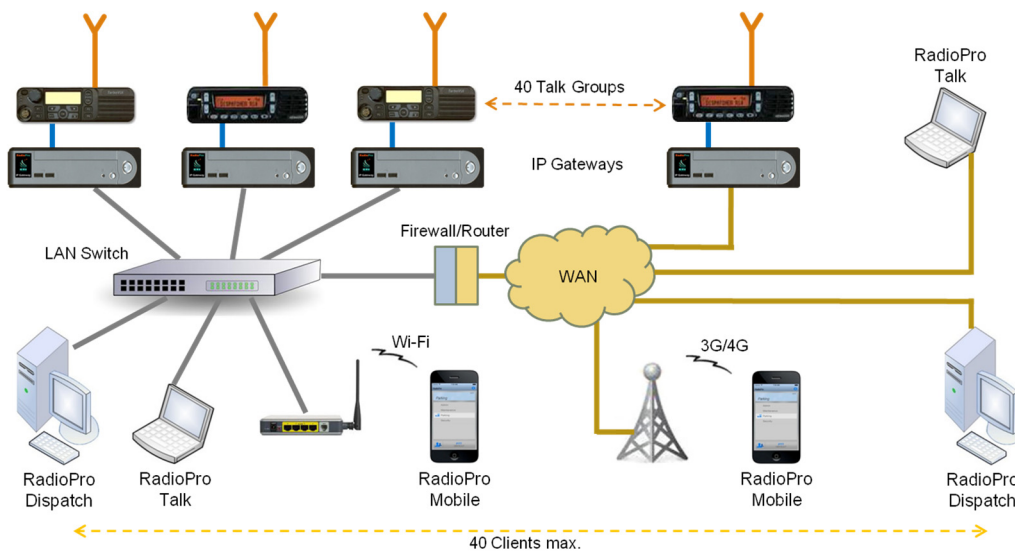

- **PTT and Listen:**  
Clear communications using 3G/4G or Wi-Fi
- **Quick Response:**  
Eliminates “... shoot” vs. “Don’t shoot” scenario
- **Private and group calls**  
More efficient use of channel
- **Fast switching between talk groups**  
Choose a talk group or channel from the on-screen list
- **Text Messaging**  
Coming Q1, 2015
- **Zone & Channel Selection**  
Coming Q1, 2015

Download RadioPro Mobile app from the Apple App Store or the Google Play Store: Search for “radiopro”
